

Óbuda University Bánki Donát Faculty of Mechanical and Safety Engineering			Institute: Institute of Material and Manufacturing Science			
Name of the subject: Manufacturing Engineering 2 BGXGTE3BNE / BAGGT23NED/C						Credit: 4
Full time course Term: 2019/2020 I.						
Programme: Mechatronic Eng BSc II English			Mo. 13:30-17:00 Room 110			
Teacher responsible for the subject:	Mikó Balázs (PhD; ass. prof.)		Teachers:	Mikó Balázs (PhD; ass. prof.)		
Prerequisites:		-				
Hours per week:	Lecture: 2	Practice.: 0	Labs: 2	Consultation:		
Way of closing the semester:	Exam					
Curriculum						
The aim of the subject is to present the basics of manufacturing and cutting technology, the positioning and fixtures and machine tools. The tool geometry, materials, wear process and life time are presented. The different cutting methods (turning, milling, drilling, grinding, planning, shaping, broaching), tools and related machine tools are described.						
Schedule						
Week no.	Topics					
1.	Introduction Manufacturing process planning, requirements and process elements, Documenting					
2.	Blank materials, selection and calculation, tolerances and manufacturing errors		Safety and ergonomics in machining workshop			
3.	Cutting technology		Manufacturing examples			
4.	Edge geometry and tool materials		Manufacturing process planning 1 HW1 out			
5.	Tool wear, forces, cooling		Manufacturing process planning 2			
6.	Basic cutting methods and machine tools: turning,		Consultation			
7.	Basic cutting methods and machine tools: turning,		Manufacturing process planning 3			
8.	Basic cutting methods and machine tools: milling		Manufacturing process planning 4			
9.	Basic cutting methods and machine tools: drilling		Manufacturing process planning 5			
10.	Basic cutting methods and machine tools: Grinding		Manufacturing process planning 6			
11.	Positioning and fixtures, typical fixtures in machining		Consultation			
12.	Manufacturing examples		Deadline of HW1			
13.	Test					
14.						
Requirements						
1 test in 14. week (max 60 points), 1 homework (max 30 points)						
0-39 %      – 1 (fail);      40-54 %      – 2 (pass);      55-69 %      – 3 (satisfactory) 70-84 %      – 4 (good);      85-100 %      – 5 (excellent)
